

# AOP 2022

## 5<sup>th</sup> International Conference on Applications of Optics and Photonics Hotel de Guimarães Business & SPA, Guimarães, Portugal, July 18 to 22, 2022

### Call for Papers

The [Portuguese Society for Optics and Photonics](#) is organizing the V International Conference on Applications of Optics and Photonics, [AOP2022](#), at the [UNESCO World Heritage historical city of Guimarães](#) in the beautiful north of [Portugal](#), July 18 to 22, 2022. Portugal' first capital, Guimarães was recently considered one of the most beautiful small towns in Europe by [CNN Travel](#). It holds the charm tranquility mystery and that special atmosphere of the European medieval towns with a well-preserved heritage and well taken care urban spaces. Focusing also on the preservation of the natural environment and on sustainable development, [Guimarães](#) is a progressive city with an important well established and innovative industry and a young population that helps maintaining a constant vibrant and impressive [cultural](#) life that the participants of AOP2022 will share and enjoy.

In line with the major success of SPOF's previous conferences - [AOP2011](#) in Braga, [AOP2014](#) in Aveiro, [AOP2017](#) at the University of Algarve in Faro, and the last edition [AOP2019](#) at the University of Lisbon - our 5<sup>th</sup> international meeting will review the state-of-the art and foresee and discuss the future of research in Optics and Photonics while further reinforcing the international prestige of the AOP conferences as reference meetings in O&P.

In the open and friendly environment characteristic of SPOF's conferences, we will meet again in person to exchange knowledge and experiences and to renew relationships and foster the establishment of the widest range of cooperation projects and relationships with colleagues and institutions from Portugal and from all around the world. Now that the world is slowly recovering from the COVID19 pandemic and trying to resume "normal" life, we will be particularly careful in ensuring the proper sanitary and best safety conditions in order to allow a smooth and efficient development of our conference. The use of protective masks will be mandatory at the conference venue and at the enjoyable social program we will provide. The deadline for submissions of works to the conference as well as the early registration deadline were set to the latest possible dates (early/mid-June) in order to allow the safer and most comfortable participation decision.

Over forty plenary and keynote lectures by world renowned researchers in all fields of Optics and Photonics, sets the quality standards of a varied and exciting scientific program. Peer-reviewed accepted papers will be published in an indexed proceedings book (IOP' Journal of Physics-Conference Series) and in special editions or sections of several reputed ISI/SCI journals. The participation of students is encouraged with reduced fees support and several awards to the best works provided with the support of ICO, SPIE, EOS and SPOF.

### Important dates

**Abstract Submission Deadline (final): June 11, 2022**

**Early Registration Deadline (final): June 21, 2022**

**Full Paper Submission Deadline: July 29, 2022**
